# GARDENING for PROFIT and PLEASURE

---

You Can  
Produce  
A Crop  
of  
Cabbage  
Four  
Weeks  
Earlier

---

---

By Using  
Our  
Field  
Grown  
Frost  
Proof  
Cabbage  
Plants

---

OUR plants are grown in the open field and hardened through frost and freezing weather, and will mature four weeks earlier than home grown or hot bed plants. After going through this frost and freezing weather they have been known to survive 10 above zero without injury to the plants!

---

THE JEFFERSON FARMS  
ALBANY, GEORGIA

# To Our Customers, Our Friends

Albany, Georgia, January 2, 1930.

It is with a great deal of pleasure that we send you this price list of high grade vegetable plants and farm seeds, and with it goes our appreciation for the patronage you have given us in the past.

You doubtless know that the recent freeze killed fully 75 per cent of the cabbage plants thru out the South. We were fortunate in having several million plants that came thru the freeze in good shape, and we are going to try and take good care of our customers. We would urge you to send in your order **EARLY**, and if wanted at a later date advise us so that we can protect your requirements.

You may send us your orders with the understanding that you will get prompt service and a strictly square deal. Your order will be shipped immediately unless delayed by weather conditions over which we have no control. We will be mighty glad to have your orders and you may rest assured that they will be given personal attention.

Signed W. F. Jefferson

*General Manager*

## HALF & HALF COTTON SEED

From actual experience we find our Half and Half cotton the earliest and heaviest yielding cotton known. Selected from genuine Summurour strain, 1200 pounds seed cotton produced 570 pound bale this season.

**Seed \$4.50 per bag of 3 bushels.**

## WHATLEY'S PROLIFIC SEED CORN.

Selected from corn grown from seed direct from originator and true to name. This is without doubt the heaviest yielding corn in existence. Don't waste your time and hard work trying to make a big yield with ordinary field corn that has not been selected or improved in years. Prices for selected seed.

<b>1 bushel</b>	<b>\$2.50</b>
<b>1 peck</b>	<b>\$1.00</b>

Charleston Wakefield

Many market gardeners consider this the best cabbage in cultivation. Its merits are many, among which are large heads for an early variety, small outside foliage, and uniformity of crop. The heads are medium size, cone shaped, and are white, solid and tender.

Early Flat Dutch

The Earliest of the flat head varieties. A sure header, and a very hardy grower, both in cold and hot weather. This variety is grown extensively in the South and gives universal satisfaction. We strongly recommend this variety.

### Large Flat Dutch

This variety needs no recommendation, as it is one of the oldest in cultivation. Exceedingly valuable for its quality, and for its ability to resist heat. Heads very solid, round, flattened on top, tender and fine grained.

### Henderson's Succession

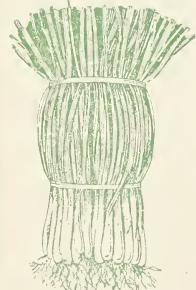

Early Jersey Wakefield

Henderson's Succession

### Copenhagen Market

The heads of this variety are exceptionally large for an early variety. Growth is vigorous with solid compact heads with few outer leaves. About as early as Early Jersey Wakefield.

### White Bermuda Onion Plants

White Bermuda Onions are noted for their earliness, heavy yields and mildness of flavor. We plant our seed in October, and the plants takes on root growth during the winter months, and will grow very fast when put out in the Spring and we strongly recommend them for the more Northern Sections of the South where it gets too cold for this variety to live during the winter. Prices: Same as for cabbage plants.

### Porto Rico Yam Sweet Potato Plants

This variety is by far the best and most profitable sweet potato grown. A very heavy yielder, requiring less cultivation due to rapid growth and dense foliage which shades the ground. We grow no other variety so you can rest assured that you get a pure strain from our farms.

Orders must be placed far in advance as we only bed sufficient seed to insure the number of plants for which we have orders. Shipment after April 1st. Prices: 500, \$1.75; 1000, \$2.50 Postpaid. By Express or parcel post collect 1000, \$2.00; 4000 and over \$1.75 per thousand. Special price on large orders.

---

Cabbage and Onion Plants Ready for Immediate Delivery

## Open Field Grown Tomato Plants

Grown from seed selected for big crops. Open field grown tomato plants are strong and hardy, short jointed and well rooted. We supply some of the largest canners, and commercial growers of tomatoes in the United States. Plants ready for shipment about April 1st. Book your order in advance if possible. Varieties: Earliana; Greater Baltimore; Stone; Livingstons globe and Chalks Early Jewel. Prices: 100, 50c; 500, \$1.50; 1000, \$2.50 Postpaid. By express 1000, \$1.75; 4000, and over \$1.50 per thousand.

## An Additional Profit of \$150.00 an Acre

### An acre of Cabbage

well taken care of in an ordinary season will produce 15,000 heads, or thirty thousand pounds of good, wholesome food for man or beast. If you can realize the small sum of one cent per head you would realize

### \$150.00 an Acre

and at one cent per pound would sell for \$300. At the time this is written cabbage is selling for three and one-half cents per pound here wholesale. Ask your local grocer the market quotations on cabbage. You can follow this same acre of land with cotton, corn or potatoes and make a good crop without additional fertilizer.

**OUR GUARANTEE**—All plants are guaranteed to reach you in good condition. Should there be any damaged plants, select the good ones and notify us at once.

### Our Prices on Cabbage Plants

Parcel Post Shipments—Charges Prepaid

100 for 50c.

500 for \$1.50.

1000 for \$2.75.

Express or Parcel Post Collect

Buyer Paying Charges

**\$2.00 PER THOUSAND**

**NON-WARRANTY**—We send plants that to the best of our belief will give entire satisfaction. The best plants sometimes fail thru improper cultivation or weather conditions, therefore we give no warranty, expressed or implied and will not be responsible in any way for the crop.

**WE ARE GROWERS**—We operate three farms and grow our own plants. You are buying direct from a fellow farmer when you buy from us.
